APPROVAL.....OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit to change the point of diversion and manner of use of a portion of the waters of Sierra Canyon Creek as heretofore granted under Permit 57328 is issued subject to the terms and conditions imposed in said Permit 57328 and with the understanding that no other rights on the source will be affected by the change proposed herein. A measuring device must be installed and measurements of water use kept.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on September 15, 1994 at which time all rights herein granted shall revert to the right being changed by this temporary permit.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed _____ 0.98 _____ cubic feet per second, but not to exceed 30 _____
acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before.....

Please use the map submitted to support Permits 57248 and 57249 to support this Application.

Item 5. The District Court Decree dated August 29, 1879, affirmed by the Nevada Supreme Court in a decision dated April 1, 1885, Case No. 1081, does not indicate a specific point of diversion. The existing point where Sierra Canyon Creek enters the Genoa Lakes Project is in the NE 1/4 SW 1/4 of said Section 3 as shown on the aforementioned supporting map. The pump used to furnish water to water trucks is located at the north end of a lake just west of the number 1 green at the Genoa Lakes Golf Course. Sierra Canyon Creek runs through a series of lakes into the lake from which construction water will be pumped.

Item 8. Construction water will be distributed by water trucks over roadways and areas of cut and fill within the place of use during the construction of the Genoa Lakes subdivision improvements. Estimated use for the first year of construction is 30 acre-feet. It is understood that once construction is completed, the temporary Permit will be withdrawn and that Permit 57328 be in effect as originally granted.
